SOLE SOURCE CONTRACTS BIDDING AND POLICY REVIEW

On April 14, 2009, on motion by Supervisor Ridley-Thomas, your Board requested this Office to report back with information regarding sole source contracting procedures and the frequency of sole source contracting use by County departments. Additionally, on April 21, 2009, on motion by Supervisor Antonovich, your Board also requested this Office to report back on the bidding practices related to some County venues that may not engage in a competitive bidding process for concessions or food services.

As background, we are providing the following attachments regarding County sole source policies and periodic reports:

- Board Policy 5.100, which requires departments to submit advance written notice to the Board, before engaging in negotiations for a sole source services contract exceeding \$250,000 (Attachment I). Please note that on February 6, 2008, your Board adopted a revision to Policy 5.100 mandating:
 - The completion of a Sole Source Checklist to ensure appropriate review and enhanced compliance; and
 - Submission of an annual report to the Chief Executive Office (CEO) by all departments on sole source contracts executed under the \$250,000 threshold; the CEO compiles the list for submission to your Board.

"To Enrich Lives Through Effective And Caring Service"

***Please Conserve Paper – This Document and Copies are Two-Sided
Intra-County Correspondence Sent Electronically Only***

- The Sole Source Contracts Annual Survey Results from 2008 (Attachment II).
- Internal Services Department's (ISD's) County Purchasing Policy P-3700, requiring detailed justifications when requesting sole source acquisitions (Attachment III).
- Sample report of monthly sole source purchases over \$5,000 submitted to the Board of Supervisors by ISD (Attachment IV).

Sole Source Service Contracts

As mentioned in the annual survey report (Attachment II), the vast majority of departments do not utilize sole source service contracts as a viable method to contract for services. While 15 out of 40 departments indicated they had sole source service contracts below the threshold of \$250,000 for 2007-08, only four of those 15 departments had more than four sole source contracts during that period. Overall, there were 59 sole source contracts meeting the criteria for 2007-08 totaling \$4,479,071. The types of services contracted via sole source agreements varied by department. While there are circumstances that warrant departments to engage in sole source contracts, we recognize such contracts hinder the open and competitive bidding process and, as such, this Office will continue to monitor sole source engagements and limit sole source service contracts in future endeavors where appropriate.

Sole Source Commodity Purchases

In regard to commodity purchases under the statutory authority of the County's Purchasing Agent, ISD monitors and reports to your Board on a monthly basis those purchases that require a sole source. The sample report (Attachment IV) shows 129 sole source purchases were made during the month of March 2009, totaling \$4,502,742. With an annual volume of over \$1.1 billion for all acquisitions managed by ISD, the cost of sole source purchase orders average approximately 4.1 percent of all purchases. ISD provides policy, requirements, and sole source checklists to be completed and submitted by departments for review and approval, and ensures policy requirements are met.

Sole Source Concessions and Food Services

An analysis of the County's current concessions and food service providers revealed that all were required to participate in a competitive bidding process. Additionally, although non-County organizations that currently operate County venues through operating agreements with the County are not subject to County's bidding requirements in negotiating their own contracts with food and beverage vendors, all facility operators voluntarily engaged in competitive bidding processes for food and beverage concession services.

Each Supervisor
June 10, 2009
Page 3

Specifically, the Los Angeles Philharmonic (Hollywood Bowl), Descanso Guild, Arboretum Foundation, and Museum Associates (Museum of Art), which have operating agreements with the associated departments to manage the noted facilities, engaged in competitive bid processes to solicit for food services. The Music Center, which is operated by the Performing Arts Center of Los Angeles County and includes venues, such as the Disney Concert Hall, Dorothy Chandler Pavilion, Ahmanson Theater, and Mark Taper Forum, also engaged in competitive bidding practices for food and beverage service.

Per your Board's instruction, we will continue to report to your Board on an annual basis regarding sole source contracts, the next annual report for Fiscal Year 2008-09 will be presented in July of 2009.

Please let me know if you have any questions, or your staff may contact James Hazlett at (213) 974-1148 or jhazlett@ceo.lacounty.gov.

BOARD OF SUPERVISORS POLICY MANUAL

Policy #:	Title:	Effective Date:
5.100	Sole Source Contracts	03/02/99

PURPOSE

Provide the Board of Supervisors with early notification of prospective large sole source contracts. The Chief Executive Office has implemented and will continue to monitor this policy with the intent of recommending future policy changes, as appropriate.

REFERENCE

February 23, 1999 Administrative Memo from Board Order, Synopsis 15

March 2, 1999 Chief Administrative Office memo, "Sole Source Contracts"

February 6, 2008 Board Order 13

POLICY

County departments intending to negotiate a sole source services contract of \$250,000 or greater, must provide advance written notice to the Board of Supervisors, with a copy to the Chief Executive Officer, indicating that they will proceed with the sole source contract negotiations within two weeks unless otherwise instructed by a Board office.

In addition, any department requesting Board approval of a sole source contract must include with the Board letter a completed sole source checklist (as provided below) approved by the Chief Executive Office.

Check**JUSTIFICATION FOR SOLE SOURCE CONTRACTS**

(√) **Identify applicable justification and provide documentation for each checked item.**

- Only one bona fide source for the service exists; performance and price competition are not available.
- Quick action is required (emergency situation).
- Proposals have been solicited but no satisfactory proposals were received.
- Additional services are needed to complete an ongoing task and it would be prohibitively costly in time and money to seek a new service provider.
- Maintenance service agreements exist on equipment which must be service by the authorized manufacturer's service representatives.
- It is more cost-effective to obtain services by exercising an option under an existing contract.
- It is in the best interest of the County, e.g., administrative cost savings, excessive learning curve for a new service provider, etc.
- Other reason. Please explain:

Deputy Chief Executive Officer, CEO

Date

Each County Department Head is also required to report to the Chief Executive Officer by June 30th of each year those sole source contracts under \$250,000 executed by/for their department for the fiscal year ending on June 30th. The Chief Executive Officer will compile the list and submit it to the Board of Supervisors.

SOLE SOURCE CONTRACTS ANNUAL SURVEY RESULTS

On February 6, 2008, your Board approved revisions to Board Policy 5.100 – Sole Source Contracts (Policy). The revised Policy was effective immediately and it continued the requirement for departments to advise your Board in advance of commencing negotiations for sole source contracts requiring Board approval in excess of \$250,000. The updated Policy also mandated departments to:

1. Attach a Sole Source Checklist to any Board letter which includes a recommendation to approve a sole source contract (the Checklist is reviewed and approved by this Office to ensure compliance with the criteria for sole source contracts prior to submittal to your Board); and
2. Track their sole source contracts below the threshold of \$250,000 effective immediately and to provide such information to this Office beginning June 2008, and on an annual basis thereafter.

On June 6, 2008, in response to your instruction, we issued a memorandum to departments in which we reminded departments of the revised Policy and we requested that departments provide this Office with the following sole source contract information electronically in Microsoft Word format:

- The contract number, amount of contract, contract term, name of contractor, type of service, and a brief description of the justification for pursuing the sole source contract.

"To Enrich Lives Through Effective And Caring Service"

***Please Conserve Paper – This Document and Copies are Two-Sided
Intra-County Correspondence Sent Electronically Only***

Sole Source Contracts Survey Results

As indicated on the attached Sole Source Contracts Survey Results Chart (Chart), all departments were responsive to the survey. Based upon our analysis of the survey information, we determined that, in general, the vast majority of departments do not utilize sole source contracts as a viable method to contract for services. Specifically, only 15 out of 40 departments indicated they had sole source contracts below the threshold of \$250,000 for Fiscal Year 2007-08. In addition, for the 15 departments that indicated they had sole source contracts meeting the criteria, 11 of these departments had four or less of these contracts for the previous fiscal year. Overall, the survey disclosed that, countywide, there were 59 sole source contracts meeting the criteria for FY 2007-08 totaling \$4,479,071. The types of services contracted via sole source agreements varied by department.

While there are circumstances that warrant departments to engage in sole source contracts, we recognize such contracts hinder the open and competitive bidding process and, as such, we will continue to monitor sole source engagements to identify methods to limit sole source contracts in future endeavors.

Please note that we did not include contracts for consulting services executed under our delegated authority in the survey as we report these contracts to your Board on a quarterly basis.

Per your Board's instruction, we will continue to report to your Board on an annual basis for sole source contracts meeting the established criteria. Should you have questions regarding this memorandum, please let me know or have your staff contact Vincent Amerson at (213) 974-1168 or vamerson@ceo.lacounty.gov.

Title:		Contents: P-3700	
SOLE SOURCE PURCHASES		Submitted By: Purchasing Division	
		Approved By: Purchasing Agent	
Effective Date: 01/01/05	Supersedes No.:	Page No. 1	of 3

General Provisions

The County solicits the maximum number of bids/proposals for a commodity or service from the largest relevant market and selects vendors on a competitive basis. Certain acquisitions, however, that are determined to be in the best interest of the County, may be obtained from a sole source.

Policy

Any sole source purchase over \$5,000 must be approved by the Purchasing Agent and reported to the Board of Supervisors on a monthly basis. Sole source purchases under \$5,000 may be processed directly by the individual County department under their delegated purchasing authority. In all cases, sole source acquisitions must be justified in sufficient detail to explain the basis for suspending the competitive procurement process.

Sole Source and Monopoly

A monopoly (sole source) is an *"Exclusive control of the supply of any commodity in a given market. If there exists more than one manufacturer/source in a given market, a monopoly does not exist."*

Sole source purchases can be awarded without bidding when the item can be obtained from only one source, and the item does not economically lend itself to substitution. Sole source acquisitions must be justified in sufficient detail to explain the basis for suspending the usual competitive procurement process.

Commodities

General Considerations: Department must demonstrate that the commodity:

- Is available from only one source (e.g., proprietary to a manufacturer, distributor, and/or reseller, etc.)
- Is the only brand that meets the qualifications or specifications of the requisitioning department.
- Is a brand that must match or inter-member with an existing system, and cannot be substituted without replacing the system, resulting in significant costs to the County.
- If purchased, will avoid other costs (e.g., data conversion, training, purchase of additional hardware, etc.).
- Is needed on an emergency basis, and time does not permit a solicitation.

Justification

Department must submit adequate documentation with their requisition, explaining the basis for a sole source purchase. Inadequate information may result in the automatic processing of a competitive bid solicitation.

Department must provide responses to the following questions:

1. What is being requested?
2. Why is the product needed? – How will it be used?
3. Is this brand of product the only one that meets the user's requirements? If **yes**, what is unique about the product?

Title:		Contents: P-3700	
SOLE SOURCE PURCHASES		Submitted By: Purchasing Division	
		Approved By: Purchasing Agent	
Effective Date: 01/01/05	Supersedes No.:	Page No. 2	of 3

4. Have other products/vendors been considered? If **yes**, which products/vendors have been considered and how did they fail to meet the requirements?
5. Will purchase of this product avoid costs, e.g. data conversion, training, purchase of additional hardware, etc.?
6. Is the product proprietary or is it available from various dealers? Have you verified this?
7. Reasonableness of Price: Does the County obtain a special discount or pricing not available to the private sector? How does County pricing compare with other governmental entities?
8. What is the dollar value of existing equipment and the purchase order number for the existing equipment? (Applicable to sole sources based on match and inter-member requirement, i.e. maintenance of proprietary computer software or purchase of a part/component designed for a specific piece of equipment).

Consulting Services

General considerations for justifying sole source consulting services are more complicated than for commodities. The following factors are used to justify sole source services.

1. No other vendor offers a service or employs personnel meeting the minimum requirements.
2. The department's required time frame for project completion is critical and cannot be exceeded without extreme hardship.
3. The cost to continue with the same consultant is less than the cost for any other consultant due to the time necessary to get up to speed (learning curve) with the project.
4. A unique and proprietary solution has been offered which is determined to be in the best interest of the County.
5. Purchasing Agent designee must follow the guidelines under **Checklist for Sole Source Service Requisitions** on page three before processing service-related requisitions.

Pricing

The Purchasing Agent shall negotiate with vendor/contractor for lower prices.

Department Authority to Approve Sole Sources

Departments with delegated authority up to \$15,000 are not authorized to process sole source purchases for more than \$5,000. Departments must submit a requisition to the Purchasing Agent for processing and reporting to the Board of Supervisors.

Sole source purchases under \$5,000 may be processed by the department without Purchasing Agent involvement. The sole source purchase must be approved by a departmental manager at the level of Materials Manager or higher. Department shall maintain sole source documentation in the event of an audit by County or other authority.

Title: SOLE SOURCE PURCHASES		Contents: P-3700

		Approved By: Purchasing Agent
Effective Date: 01/01/05	Supersedes No.:	Page No. 3 of 3

CHECKLIST FOR SOLE SOURCE SERVICE REQUISITIONS

Before processing sole source service-related requisition, the buyer must complete the following checklist:

- | | Yes | No |
|--|--------------------------|--------------------------|
| 1. At least one of the following conditions must exist: | | |
| a. The service cannot be performed adequately, competently, or satisfactorily by the County of Los Angeles. | <input type="checkbox"/> | <input type="checkbox"/> |
| b. The service is of an extraordinary professional or technical nature, and is temporary in nature. | <input type="checkbox"/> | <input type="checkbox"/> |
| c. The service is required on a part-time or intermittent basis. | <input type="checkbox"/> | <input type="checkbox"/> |
| d. The service is needed to provide an independent audit, evaluation, or analysis of County programs (Auditor-Controller's approval is required). | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Has the department ordered the service prior to this request?
If yes , answer the following: | <input type="checkbox"/> | <input type="checkbox"/> |
| a. How did the department pay for the prior services? _____ | | |
| b. What is the total aggregate cost of the prior services/purchase orders? \$ _____ | | |
| c. Attach a copy of the CAPS expenditure report? (i.e., on a year-to-year basis or in various project phases) | | |
| d. Attach a copy of the prior purchase order(s). | | |
| 3. Will the service be required on an on-going basis? (i.e., on a year-to-year basis or in various project phases). | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Is an adequate Statement of Work (SOW) included with the request? | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Has Board approval been obtained for the service: If yes , obtain a copy of the Board Contract or Board adopted letter and forward the request to Purchasing Management. | <input type="checkbox"/> | <input type="checkbox"/> |

DRQN-TT-00010601	Software Maintenance - Annual	AT & T	16,079	Treasurer & Tax Collector	Sole Source - Annual renewal of software support to include updates, enhancements, and maintenance is only available from the software developer.

SOLE SOURCE – NEGOTIATED TRANSACTION REPORT COMMONLY USED PURCHASING TERMS

Commonly Used Term	Meaning
Must match and inter-member with existing systems	<p>The purchased component(s) is part of an integrated system already acquired and in use by a County department.</p> <ul style="list-style-type: none"> • These acquisitions are routinely made to enhance or expand system capabilities. • Systems are generally proprietary in nature to a specific manufacturer, supplier or distributor. • Substituting equipment, if feasible, may void existing system warranty and maintenance. • Cost prohibitive to replace the existing system through a competitive solicitation process.
Required to maintain/upgrade existing system	<p>The purchased software product(s) is required to maintain, upgrade and/or modify an existing system.</p> <ul style="list-style-type: none"> • The existing system software is proprietary, and intellectual property rights are specific to the original software developer, who owns the rights to the object and source codes. • Substituting software, if feasible, may void existing system warranty and maintenance. • Cost prohibitive to replace existing software and/or systems through a competitive solicitation process.
Upgrade of software is only available from the original software developer.	<p>The purchased software product(s) is required to enhance or upgrade an existing software system, which generally means the County has purchased a "newer" version.</p> <ul style="list-style-type: none"> • The existing system software is proprietary, and intellectual property rights are specific to the original software developer, who owns the rights to the object and source codes. • Substituting software, if feasible, may void existing system warranty and maintenance. • Cost prohibitive to replace existing software and/or systems through a competitive solicitation process.
Annual renewal of software license and support to include updates, enhancements and maintenance are proprietary and are only available from the software developer.	<p>The purchased software product(s) requires an annual software license fee.</p> <ul style="list-style-type: none"> • The software developer owns the proprietary rights to the object and source codes (intellectual property). • Substituting software, if feasible, may void existing software warranty and maintenance. • Cost prohibitive to replace existing software and/or systems through a competitive solicitation process.
Prior bid, in accordance with County Code 2.81.950, 3., C.	<p>The referenced county code section gives the Purchasing Agent the authority make awards on the basis of a prior bid or last price, if the conditions of the purchase are similar.</p> <ul style="list-style-type: none"> • Generally, these purchases are made when a recent high-volume solicitation and award has been accomplished, and the awarded vendor has extended the same prices, terms and conditions for the County to purchase additional items. • In such cases, an analysis of market pricing is completed and the determination is made that a competitive solicitation process would not yield any better pricing, terms or conditions for the County.
